December 3, 2001

Dear Mr. Surace,

Once again Bob Lenz exceeded our expectations on sharing a message of respect for others, tolerance and diversity. His message was at a level our seventh grade class digested in a comfortable and accepting manner. The classroom dialogue after attending the assembly was positive and motivating to students and teachers alike.

Let's not forget the band, Breathing Machine. The students thought they were "totally sweet," and wish they could have played longer. The band's music was appropriate and added a significant "hook" for our students.

I am still getting comments of appreciation from the parents, who claim their children continue to talk about the message Mr. Lenz stressed in accepting one another and watching over your fellow man. Thank you to the Parma Youth Network for making this experience such a positive for the seventh graders at North Royalton Middle School.

Sincerely,

Diane M. Kee, Principal
