Dear Jim,

Thank you so much for sponsoring the assembly at Parma Senior High School on Tuesday, February 17, 2004. Bob Lenz' message of "Live Life to the Fullest" was certainly well received by our 1500 member student body. Bob's energetic manner of presentation is as captivating as the content of his message. His ability to talk to students in terms they understand captures their attention and opens their minds and hearts to his words. The entire program was the perfect blend of professional quality and personal delivery. Students approached me in the hall for days afterward to thank our administrative team for inviting Bob to our building. Teachers remarked about how anxious students were in classes to discuss the issues addressed by Bob at the assembly.

AJ the Animated Illusionist was also a big hit with the students. His unique brand of entertainment was fun to watch. The fact that he incorporated students and staff members into the act served to heighten the excitement for all. AJ is a masterful showman and he certainly achieved the goal of warming up the crowd for Bob Lenz.

On behalf of the staff and students of Parma Senior High School, Jim, I want to express my genuine gratitude for all you do to support our school by bringing in top quality programs that convey life-changing messages to our students. Our goal is to make them think about how every decision they make impacts their life and the lives of others in so many ways. Your dedication to assisting us in that effort is most commendable and greatly appreciated. I enjoy working with you and look forward to collaborating with you in the future, Jim.

Sincerely,

Gil Fritzsche  
Principal
